

FNAL dCache Admin Notes II

Version V2.0

Created: 01 April 2005

Modified: 10 January 2007

Rob Kennedy

5) Whole-System Start and Stop Procedures

This talk is now superfluous, having been replaced by the cold-start/cold-stop scripts and procedure, documented elsewhere now.

See the dCache developer plone site at dcache.fnal.gov:

“For the Operator” | “Administrator Doc” | “FNDCA Old-Style Infrastructure”
